

TRIPOD JACK PRODUCT LINE

FEATURES

- Hand pump with built-in pressure relief valve (CE Rating and air pump port are available)
- Knurled safety nut for easy, secure adjustment
- Rust-proof translucent reservoir with easy access cap
- Non-marking wheels for ease in maneuverability
- On-board pump handle storage
- Replaceable HDPE non-marking feet pads
- Interchangeable mechanical extension rods
- Pump and cylinder seals are compatible with MIL-PRE-5606
- Easily repairable / replaceable cylinder
- 3/4 in (2 cm) spherical radius cup jack pad adapter
- Steel frame welded in accordance with AWS D1.1 structural welding code with durable powder coat finish
- Conforms to SAE 4774B, EN 12312-19, and SAE AS8091
- 12 Month Warranty

Tripod Jack Model Number Matrix

Application

TPJ-5-44-22-76: Fairchild Dornier (Dornier 228-100/200, Metro Merlin III, Metro Merlin IV), Hawker Beechcraft (Hawker 1000, HS-125 400 Series, HS-125 800/850/900 Series, T-1 Jayhawk, T-400), IAI Westwind (1, 2), Pilatus PC-12

TPJ-5-26-16-48: Adam (A500, A700), Aerospatiale Nord 262, Airbus Helicopter Eurocopter (AS365N Dauphin, HH-65A Dolphin), Bombardier Business (C-21, Learjet 23, Learjet 24, Learjet 25, Learjet 31, Learjet 31A, Learjet 35, Learjet 55), Cessna (401, 402, 404, 414A, 421C, Bravo, Citation 650, Citation CJ1, Citation CJ2, Citation CJ3, Citation Encore 560, Citation I 500, Citation I/SP 501, Citation II 550, Citation III, Citation IV, Citation M2, Citation SII, Citation Ultra 560, Citation V, Citation VI, Citation VII, Hawker Beechcraft (Beechjet 400A, Diamond), Pilatus PC-12, Shorts (330, 360)

AERO Specialties – *Do more with Less.*

Our unique design approach maximizes your equipment investment by reducing the number of jacks in the hangar, saving you time, money, and space.

The chart below shows the planned AERO Specialties product roadmap in the 5-ton single stage range which covers a wide range of the most popular aircraft.
